

I am writing to TOTALLY oppose the petition 02-278. We are contacting the companies that are a part of this and informing them. We WILL NOT do business with anyone who calls and bothers us at home. You should be ashamed to even considering making any company exempt. It's been wonderful not to be annoyed on a regular basis. I can't believe you would let these morons have their way. Please consider that the fact that so many people have signed up for this proves that we hate being harrassed in the one safe place we have--our homes!! Sharon Lange
